

Panathenaic Stadium

The actual Stadium that hosted
the first modern Olympic Games in 1896!

Flow and Game play

The guests will arrive at the Stadium through the “back entrance” visiting first for a few minutes the museum hall with the posters and Olympic flame torches from all the modern Olympics since 1896 and then walking through an impressive stone tunnel they will reach the amazing arena!

There under the sounds of music and the facilitation from our activity leader and team, they will be divided in 20 teams of ~10-13pax each and will participate in the flag parade around the stadium initiating the Games with this motivating Opening Ceremony!

After that a rotation program of the following four (4) suggested activities will take place with teams participating at the same time in each one.

There according to their performance they will be awarded with relevant points and in the end we will populate a ranking list with the total performance of all the teams.

As for the Closing Ceremony, a “party” finale with our instructors inviting the guests to dance to the rhythm of the “Syrtaki – Zorba” dance will reward everyone for their performance.

This exciting action will be topped with the final Medal Award Ceremony to the best three (3) performing teams, while all the participants will take home with them a symbolic Olive tree branch during our group photo shoot holding a big themed banner!

Suggested Game Activities

Tug of war

Be as powerful as you can be and work closely with your team-mates to haul the opposing team across the marked out area by pulling the rope!

Suggested Game Activities

As ONE!

The ultimate cooperation game with the participants trying to join half-pipes in order to perform a “transfer race” of the valuable messages (balls) in a single channel!

The Fastest and most Accurate team to the Finish will Win!

Suggested Game Activities

Aim High!

Just like in life and business use our special building blocks to create the highest construction and beat the other teams!

How high can you go?

Suggested Game Activities

Shoot for the Stars!

A Unique Basketball game where process optimization and continuous improvement will name you The Winners in this game!

Just set your strategy and game plan in the different time periods to make the most points against the other teams from your relevant shooting points.

Closing Ceremony!
